Dear Delegates

The zeal for reaching heights demands the stride to clamber. One such stride is our ISACON SOUTHZONE 2024, Yercaud, Salem, encompassing the enthusiasm to exchange knowledge and to keep pace with current trends in anaesthesiology, critical care, pain and palliative care. Under the vision, inspiration and guidance of our Indian Society of Anaesthesiologists, we the Salem City branch of ISA are bestowed with this chance of a lifetime and we owe a lot for envisioning that flair in us. We feel humbled and incredibly responsible for ensuring that we provide you with the very best experience journeying through the world of Anaesthesiology and imprint valuable take home messages in your hippocampus.

Our scientific program draws strength from foundational basics in anaesthesiology and recent advances. It adores the acquisition of clinical acumen through contributions from seasoned experts who have charted through various challenges in this field. We intend to cover the entire spectrum of anaesthesia, from basic sciences to perking uphill, thanks to our diverse array of lectures proposed, intended CME and workshops, and our keystone stalwart speakers and pioneers who come from all over India to enlighten you.

Not least of all, you are about to visit “The Jewel of the South”- Yercaud known for its verdant lush green meadows and citrus groves. We’re afraid you will be reluctant to start back from the Eastern ghats. We hope you find the three days you spend here with us will be a pleasing page in your book. We eagerly anticipate your valuable presence and look forward to celebrating the ISACON SOUTHZONE 2024 in Yercaud.

Regards

Organizing Team
